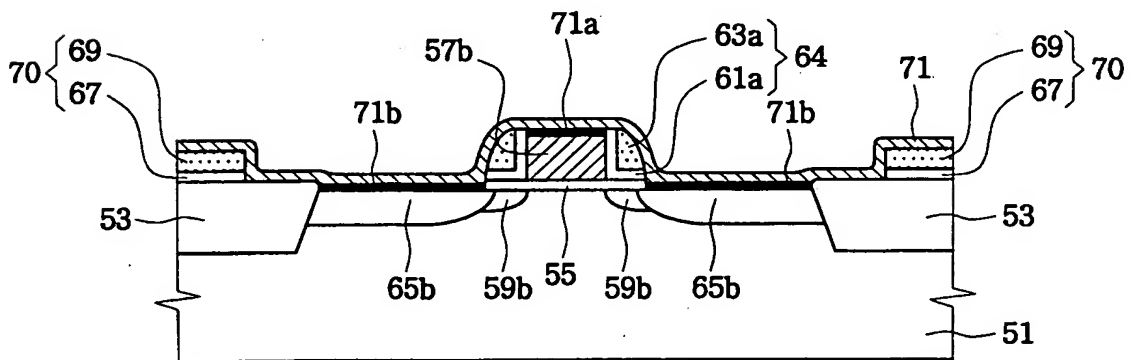

FIG. 4F

A cross-sectional view of a substrate 65b. The substrate is a rectangular block. In the center of the substrate is a layer 71b, which is indicated by a bracket on the left. Layer 71b is composed of two sub-layers: 71a_U (upper) and 71a_L (lower). Layer 71a_U is a thin layer with diagonal hatching. Layer 71a_L is a thicker layer with a cross-hatch pattern. The top surface of the substrate is labeled 73.
